6. MISCELLANEOUS - CHARGES

For classes of permits not described or included in this schedule, a reasonable permit fee shall be determined by the Chief Building Official.

7. REFUNDS

- (a) Pursuant to Part 5 of this By-law, the fees that may be refunded shall be a percentage of the fees payable under this By-law, calculated by the Chief Building Official as follows:
- (i) 90 percent if administrative functions only have been performed;
 - (ii) 80 percent if administrative and zoning functions only have been performed;
 - (iii) 60 percent if administrative, zoning and plan examination functions have been performed;
 - (iv) 50 percent if the permit has been issued and no field inspections have been performed subsequent to permit issuance;
 - (v) a \$60.00 fee for each field inspection that has been performed after the permit has been issued will be deducted from all refunds.
 - (vi) If the calculated refund is less than the minimum fee applicable to the work, no refund shall be made of the fees paid.
- (b) Pursuant to Part 5 of this By-Law, the performance deposit may be remitted as follows:
- (i) in the case of withdrawal of an application, or refusal of a permit, or the non-commencement of any project, the Chief Building Official shall refund the full amount of the performance deposit.
 - (ii) in the case of abandonment of all or a portion of the work, the Chief Building Official shall withhold the performance deposit until such time as the abandoned work has been made in a safe condition, all work required to be performed has been completed and the site has been property fenced. In the event the work is carried out by the Corporation, the performance deposit may be applied against the cost to the Corporation for such work.

8. INTERPRETATION

The following explanatory notes are to be observed in the calculation of permit fees:

- Floor area of the proposed work is to be measured to the outer face of exterior walls and to the centre line of party walls or demising walls. (excluding residential garages).
- In the case of interior alterations of renovations, area of proposed work is the actual space receiving the work e.g. tenant space.
- Mechanical penthouses and floors, mezzanines, lofts, habitable attics, and interior balconies are to be included in all floor area calculations.
- Except for interconnected floor spaces, no deductions are made for openings within the floor area (e.g. stairs, elevators, escalators, shafts, ducts, etc.).
- The occupancy categories in the Schedule correspond with the major occupancy classifications in the Ontario Building Code. For mixed occupancy floor areas, the Service Index for each of the applicable occupancy categories may be used, except where an occupancy category is less than 10% of the floor area.
